BME 490 Study Proposal

This study plan must be submitted to Dr. Surya Mallapragada, Director of the Biomedical Engineering Minor, prior to enrolling in BME 490 – Independent Study. Please prepare this plan in consultation with your Project Supervisor, whose approval verifies that the planned effort justifies the number of proposed credits. Typically you should expect to spend 3 to 4 hours per week per credit hour.

Project Title:  __________________________________________

Project Supervisor Name:  __________________________________________

Student Name: __________________________________________ ID#: __________________________

Classification (Sr/Jr/..): _______ Enrollment Term(s): _______ Credits Each Term (1-6): ______

Note: 6 cr. Maximum applied to Tech Elects.

1. Course Objectives:

   Describe the topic you plan to study. Indicate what you hope to learn as a result of this independent study. How does this relate to biomedical engineering?

2. Approach to Independent Study:

   List the specific activities planned for the semester. Include a tentative timeline showing the anticipated number of weeks you plan to work on each activity during the term.

3. Methods for Reporting Progress and Demonstrating Achievements:

   Describe how you will interact with your Project Supervisor during the term (weekly meetings, e-mail summaries, etc.) and identify the project’s “deliverable,” whether that be a written report, presentation, draft of a journal article, etc.
