CyHire is your on-line system for managing activities related to preparing for and seeking professional employment.

CyHire allows you to create a profile, store documents, search and apply for jobs, participate in OCR (on-campus recruiting), research employers, schedule counseling appointments, view career fair participants, see details on upcoming workshops and info sessions, and manage your calendar. CyHire is used by employers to post all professional employment opportunities (co-ops, internships and full-time positions). It should be one of your primary sources for employment information because employers that use the system are specifically looking to hire ISU students and alumni.
