2021 ITS Minnesota Undergraduate Student Scholarship Competition

Applications Due: Friday, September 10th, 2021

ITS Minnesota, a state chapter of ITS America since 1995, is proud to announce up to four undergraduate student scholarships of $1,000 per award. The competition is open to all undergraduate students in Minnesota, North Dakota, South Dakota, Iowa, and Wisconsin who have not received the ITS Minnesota Undergraduate Award in the past.

The purpose of the undergraduate student award is to reward exceptional students for their interest in the transportation industry, particularly intelligent transportation systems.

*Intelligent Transportation Systems (ITS) encompass a broad range of wireless and wire-line communications-based information, control and electronics technologies. When integrated into the transportation system infrastructure, and in vehicles themselves, these technologies help monitor and manage traffic flow, reduce congestion, provide alternate routes to travelers, enhance productivity, and save lives, time and money.*

Applications will be evaluated on the following criteria:

- Academic Achievement
- Student Activities
- Work Experience & Volunteer Work
- Career Goals & Objectives
- Interest In & Understanding of ITS

Submit completed application to Jacob Folkeringa via e-mail at jfolkeringa@srfconsulting.com with a subject line of “2021 ITS MN Undergraduate Scholarship Application”. Applications are due on Friday, September 10th, 2021.

A committee designated by the ITS Minnesota Board of Directors will select scholarship recipients. Scholarships will be presented at the ITS Minnesota Fall Forum the last week of September.

Please answer the following questions. Attach a separate piece of paper if desired. Please limit your response to two pages total.

1. What are your academic achievements (course work, projects, honors, etc.)?

2. What student activities/organizations are you involved with?

3. What work or volunteer experience do you have?

4. What are your career goals and objectives and how are you preparing to meet them?

5. What is your vision for innovation in transportation? What will be your contribution to change?
