

Iowa State University College of Engineering Requirements

- Courses must be completed with a grade of “C” or better in order to be considered for transfer credits into the College of Engineering.
- All engineering students must successfully complete **BASIC PROGRAM** courses (listed below) before progressing to upper level engineering program course work.
- Students not adequately prepared for success in Calculus I may need to take courses in addition to those listed in the Basic Program. Some students may first need to successfully complete college algebra (Math 140; DMACC MAT 121) and/or college trigonometry/prep for calculus (Math 143; DMACC MAT 129 or 130).
- The College of Engineering requires two years of a single foreign language in high school – OR – an equivalent in college (typically two semesters).

## Social Science/Humanities (SS/H) General Education Requirements

- Engineering degree programs require between 12 and 15 credits in social sciences/humanities/general education (SS/H). The list below offers course options that are accepted by all ISU engineering departments; however, each program has unique requirements—please confirm choices on an individual basis if you know your intended engineering program.
- Iowa State University requires each student to complete three credits of course work categorized as “US Diversity” (indicated below with <sup>1</sup>); and 3 credits of course work categorized as “International Perspective” (indicated below with <sup>2</sup>). These can be included within the 12-15 credits of SS/H requirements.
