TRANSFER STUDENT VISIT DAYS

We know you might like to visit campus for either the first time or one more time before you make your decision. While we are unable to host visitors on campus at this time, we have created a virtual campus visit experience just for transfer students. Check out the opportunities to connect with other incoming students and register today...

TRANSFER STUDENT ORIENTATION

Orientation is NOT the same thing as a visit day - it is a vital part of getting ready to be an ISU engineering student. When you attend orientation, you will have a meeting with your academic advisor where you register for your first semester’s classes. Sign up now if you have been accepted to continue your studies at Iowa State in spring 2021. After you accept your offer of admission, orientation information and registration details are sent to you. Be prepared to attend orientation by...

1) Knowing which engineering major you want to pursue.
2) Taking the online ALEKS math assessment prior to orientation, if required.

Orientation programs are currently being held online. You will receive additional information from New Student Programs about orientation options once you accept your offer of admission.

Solidworks and CAD Club

The Solidworks and CAD Club has the purpose of providing students with practice in CAD. Focusing mostly on Solidworks, but also includes AutoCAD, Inventor, and more. There are also networking opportunities between members and companies that come once or twice during the semester to talk about how work using CAD and its importance. Also, if a member shows interest and participation during the academic year, the student will receive practice and a free code to take the CSWA exam (and in the following year CSWP). The club welcomes members of all skill levels and with experience in any CAD and programming software. We have our meetings once every two weeks and have activities for everyone (Beginner, Intermediate, and Expert). Please join the Solidworks and CAD club for more information:

Buildertrend

**Buildertrend Company Overview**

Buildertrend is the No. 1, cloud-based construction project management software trusted by homebuilders, remodelers and specialty contractors. Since 2006, we have empowered the construction industry with a better way to build. It all started with two brothers and a friend. Jeff Dugger, Steve Dugger and Dan Houghton built the company around a simple mission: to change the way the world builds. Today, our team has grown to more than 500. This team includes our Customer Success, Sales and Engineering departments, as well as Support Functions, including Marketing, Talent Acquisition, Human Resources, Finance, Legal Corporate Development and Data Science. Together, we provide nearly 1 million industry professionals a better way to run their business and a better way for their clients and networks to experience the construction process.

Buildertrend has a winning culture. Here are some of our most recent honors:

- Named to Inc. magazine’s list of Best Workplaces in 2020.
- The #1 position in the Best Places to Work Omaha contest in 2019 & 2020.
- CODiE Award finalist for Best Project Management Solution

Over time, Buildertrend – headquartered in Omaha, Neb. – has become the gold standard for construction tech. With our cutting-edge software, we’ve helped construction professionals in more than 100 countries complete 2 million jobs on deadline and on budget. Our all-in-one solution provides builders the tools they need to oversee every step of the construction process, from pre-sales and scheduling to finances and customer management.

We are proud to offer award-winning training and support – it’s unlimited and available to all our customers. The more we grow, the more committed we’ve become to our clients and the belief that even the best can get better.

**What is Buildertrend looking for when hiring and engineering intern/full-time employee?**

When we look for an intern or full-time employee, we always say “we hire 10s.” What that means is someone who is a team player with a good attitude. We’re looking for those who possess an ability to learn and grow in an always-changing environment, along with exceptional communication skills and technical knowledge. The Buildertrend culture is built on accountability, transparency and a never-ending drive to be the best. To be on the Buildertrend team is to trust the person next to you, celebrate our successes together and never stop improving. If you can bring this to our organization, along with the technical skill required in the role, you’d be a great fit at Buildertrend.
ON FACEBOOK?
Join our E-APP Facebook group to stay connected to what’s going on in the College of Engineering and across the Iowa State University campus. Highlights include events, awards, class projects, and competitions. We’ll try to post new items at least once each week.

Buildertrend

What engineering challenges does Buildertrend face?
Some of the largest challenges we face at Buildertrend is scaling our platform due to growth, providing an industry-leading design and user experience in our product. We are accomplishing this all while keeping a stable and secure environment that is integral in supporting our customers’ businesses.
To do this effectively, we need to find the right people to join our team. We are growing as a company and are looking to surround our team of highly talented software engineers with other bright professionals who like to solve tough problems.

What Engineering Division(s) does Buildertrend hire?
- Electrical Engineering
- Computer Engineering
- Software Engineering
- Agricultural Engineering
- Mechanical Engineering with Simulink/Modeling background
- Computer Science

TRANSFER ADMISSION PROCESS CHECKLIST
Keep up on important deadlines – stay on track by following the guidelines recommended on the transfer application checklist. As an E-APP member, you are one step closer to being admitted to Iowa State, but you must still officially apply for admission. You can complete that first step as early as one year in advance of your intended ISU start date.
